

Nanotechnology

The Applications of Today, the Promise of Tomorrow

Key developments are leading the way in the public and private sectors

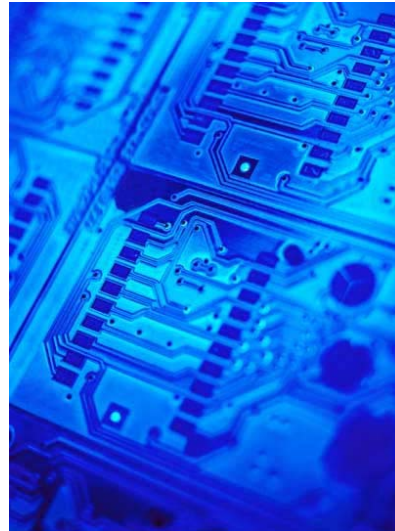

NORTH AMERICAN EDITION

ISSUE: May 24, 2010
AD CLOSE: April 5
MATERIALS DUE: April 19

From editorial leadership to unparalleled access to the business elite, here are just a few reasons why *Fortune* was named “The Best Business Magazine in America” by *The Washington Post*:

- **ACCESS:** *Fortune* delivers insights from the C-suite.
- **POWERFUL BRAND:** The *Fortune* 500 is the benchmark of business success—listed in *Webster’s New World Dictionary*.
- **MOST NOTED & MOST QUOTED:** *Fortune* is the business magazine most noted and quoted by the national news media.

IN PARTNERSHIP WITH:

OUR EDITORIAL PLAN

Fortune’s 4.1+ million readers have a thirst for information—especially when it comes to cutting-edge technology. That’s why *Fortune* Custom Publishing has paired with the International Association of Nanotechnology to create a new special ad section that will examine the integral role nanotechnology is currently playing in the world’s push toward clean energy and the reduction of GHG emissions. From solar panels and wind turbines to batteries used in electric cars, we’ll highlight examples that underscore the pivotal role nanotechnology is playing in the New Green Economy. We will also write about how other sectors, from biotechnology to defense, are employing nanotechnology to fight disease and save lives. As a sponsor of this section, you are eligible to receive text coverage about your company, your research, and your products. This is a strategic, controlled means of educating millions of influential business executives about where your company is headed.

AUDIENCE 4.1 MILLION
MEDIAN HHI \$95,711
MEDIAN AGE 43.8
TOP MGMT. Index 233

Maximize your sponsorship by leveraging CNNMoney.com's audience of more than nine million unique monthly users. For a small incremental investment, our team will create a custom rollover unit that features your custom text embedded within your ad unit.

VALUE-ADDED BENEFITS

- We will interview your executives to ensure coverage of your most exciting products, initiatives, and technological advancements. Your text will be subject to your review. This is a powerful way to shape a custom message for the *Fortune* audience.
- IANano will distribute the May 24 issue containing this section at Nana Bio 2010, the sixth annual International Congress of Nanotechnology.
- Ask us about a myriad of added-value options, from custom mailings to free PDFs of the final section, which are ideal for email blasts, site postings, and handouts at trade shows.

THE INTERNATIONAL ASSOCIATION OF NANOTECHNOLOGY

The International Association of Nanotechnology is a non-profit professional association with the goal of fostering research, business collaboration and providing advanced education and training in nanotechnology and clean technology worldwide.
